

SUPA™

Stainless Steel The Collection.

Introducing **2 NEW** Finishes

Luna PVD Black and Luna PVD Grey

Supa™ Stainless Steel

Luna PVD Black and Luna PVD Grey.

Responding to the rising demand for sophisticated grey tones in modern architecture, Mila has expanding its premium composite door furniture collection with the introduction of Luna PVD Grey and Luna PVD Black finishes. These elegant options complement contemporary design trends, giving fabricators and installers greater flexibility to meet evolving customer preferences.

The Luna PVD Grey and Luna PVD Black finishes are available across Mila's renowned Supa™ range, including the Supa™ Pull Bar, which seamlessly combines sleek aesthetics with durable stainless steel construction. The finishes also extend to Supa Door Knobs, Escutcheons, and Letterplates, ensuring a cohesive, high-end look for any entrance.

A Perfect Balance of Style & Function

Colour choice is a key factor in door selection, and today's homeowners are gravitating toward warmer, natural grey hues. These refined tones create a welcoming, sophisticated aesthetic and pair effortlessly with materials like wood, stone, and contemporary façades

Unmatched Corrosion Resistance

Mila's Supa™ Stainless Steel Door Knockers are independently tested to the BSEN 1670 standard, achieving the highest grade 5 rating for corrosion resistance. In fact, the range has been rigorously tested for 1000 hours in a salt spray chamber—twice the industry standard—ensuring an incredibly durable and long-lasting finish

Supa™ Stainless Steel Letterplate.

Mila's **Supa™ letterplate** is manufactured from **high quality stainless steel**. The **contemporary design** features a **matching frame and flap**, and suites with other **Supa™** stainless steel door furniture for a **fully coordinated** look.

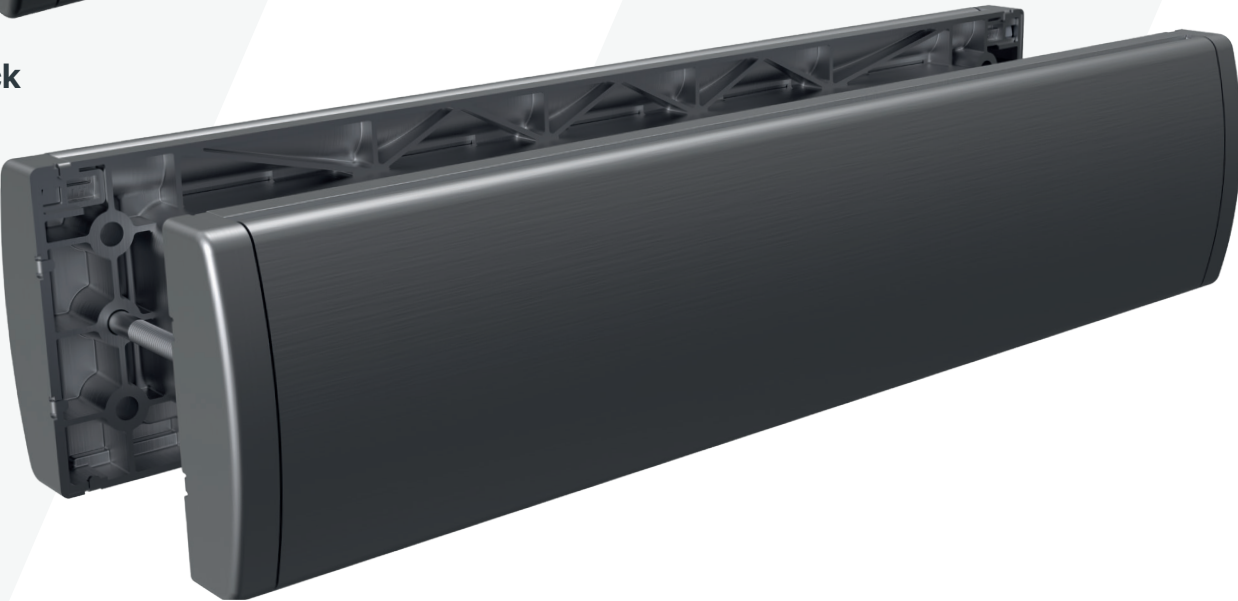

The range has been independently tested to the toughest **performance** standards including BSEN 1670 achieving the highest grade 5 rating for corrosion resistance. In fact, the SUPA™ stainless steel letterplate has been tested to twice the industry standard requirement achieving 1000 hours in a salt spray chamber.

For **extreme weather tightness** the Supa™ letterplate has been tested to **BS6375-1** resisting 150 Pascals air pressure while preventing water ingress applied at 2 litres per minute under gale force wind conditions.

Supa™ standard letterplates are **guaranteed for 25 years** for both mechanical operation and surface finish.
